WHO SHOULD SUBMIT THIS APPLICATION

Clinics, group practices, and other suppliers must complete this application to enroll in the Medicare program and receive a Medicare billing number.

Clinics, group practices, and other suppliers can apply for enrollment in the Medicare program or make a change in their enrollment information using either:

- The Internet-based Provider Enrollment, Chain and Ownership System (PECOS), or
- The paper CMS-855B enrollment application. Be sure you are using the most current version.

For additional information regarding the Medicare enrollment process, including Internet-based PECOS and to get the current version of the CMS-855B, go to **http://www.cms.gov/MedicareProviderSupEnroll**.

NOTE: Applicants using this application require a Type 2 NPI. See below for more information.

NOTE: For the purposes of this application, the word "supplier" is used universally and includes any providers or suppliers who are required to complete the CMS-855B application.

Complete and submit this application if you are an organization/group or other supplier that plans to bill Medicare and you are:

- Enrolling in the Medicare program for the first time with this Medicare Administrative Contractor (MAC) under this tax identification number.
- Currently enrolled in Medicare but have a new tax identification number. If you are reporting a change to your current Medicare enrollment to your tax identification number, you must complete a new application.
- Currently enrolled in Medicare and need to enroll in another Medicare Administrative Contractor's (MAC's) jurisdiction (e.g., you have opened a practice location in a geographic territory serviced by another MAC).
- Revalidating your Medicare enrollment. CMS may require you to submit or update your enrollment information. The MAC will notify you when it is time for you to revalidate your enrollment information. Do not submit a revalidation application until you have been contacted by your MAC.
- Previously enrolled in Medicare and you need to reactivate your Medicare billing number to resume billing. Prior to being reactivated, you must meet all current requirements for your supplier type before reactivation may occur.
- Currently enrolled in Medicare and need to make changes to your enrollment information (e.g., you have added or changed a practice location). Changes must be reported in accordance with the timeframes established in 42 C.F.R. section 424.516. (IDTF changes of information must be reported in accordance with 42 C.F.R. section 410.33.)
- A hospital, hospital department, or other medical practice or clinic that may bill for Medicare Part A services but will also bill for Medicare Part B practitioner services or provide purchased laboratory tests to other entities that will bill Medicare Part B.
- A certified Medicare Part B provider (i.e. Ambulatory Surgery Center, Portable X-ray Supplier) intending to report a CHOW. A CHOW typically occurs when a Medicare provider has been purchased (or leased) by another organization. The CHOW results in the transfer of the old owner's Medicare Identification Number and provider agreement (including any outstanding Medicare debt of the old owner) to the new owner. The regulatory citation for CHOWs can be found at 42 C.F.R. 489.18. If the purchaser (or lessee) elects not to accept a transfer of the provider agreement, then the old agreement should be terminated and the purchaser or lessee is considered a new applicant and must initially enroll in Medicare.
- A medical practice, group/clinic or other supplier that will bill for Medicare Part B services (e.g., group practices, clinics, independent laboratories, portable x-ray suppliers).
- Terminating a Physician Assistant (PA) employer relationship.
- Terminating an employer or individual relationship with an Independent Diagnostic Testing Facility (IDTF).
- Voluntary terminating your Medicare billing privileges. A supplier should voluntarily terminate its Medicare enrollment when it:
  - Will no longer be rendering services to Medicare patients, or
  - Is planning to cease (or has ceased) operations.

NOTE: For the purposes of this section of this application, an entity is defined as a group/clinic, other supplier, or any organization to which you will reassign your Medicare benefits.

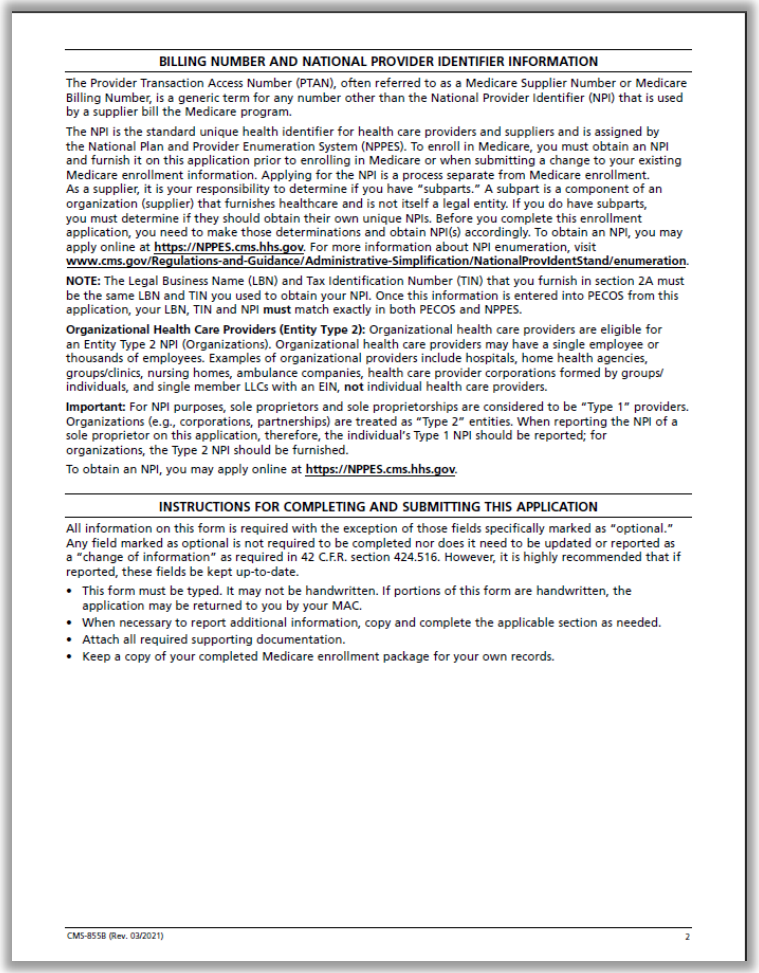
Additional Instructions



BILLING NUMBER AND NATIONAL PROVIDER IDENTIFIER INFORMATION

The Provider Transaction Access Number (PTAN), often referred to as a Medicare Supplier Number or Medicare Billing Number, is a generic term for any number other than the National Provider Identifier (NPI) that is used by a supplier bill the Medicare program.

The NPI is the standard unique health identifier for health care providers and suppliers and is assigned by the National Plan and Provider Enumeration System (NPPES). To enroll in Medicare, you must obtain an NPI and furnish it on this application prior to enrolling in Medicare or when submitting a change to your existing Medicare enrollment information. Applying for the NPI is a process separate from Medicare enrollment. As a supplier, it is your responsibility to determine if you have "subparts." A subpart is a component of an organization (supplier) that furnishes healthcare and is not itself a legal entity. If you do have subparts, you must determine if they should obtain their own unique NPIs. Before you complete this enrollment application, you need to make those determinations and obtain NPI(s) accordingly. To obtain an NPI, you may apply online at **https://NPPES.cms.hhs.gov**. For more information about NPI enumeration, visit **www.cms.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProvIdentStand/enumeration**.

NOTE: The Legal Business Name (LBN) and Tax Identification Number (TIN) that you furnish in section 2A must be the same LBN and TIN you used to obtain your NPI. Once this information is entered into PECOS from this application, your LBN, TIN and NPI **must** match exactly in both PECOS and NPPES.

Organizational Health Care Providers (Entity Type 2): Organizational health care providers are eligible for an Entity Type 2 NPI (Organizations). Organizational health care providers may have a single employee or thousands of employees. Examples of organizational providers include hospitals, home health agencies, groups/clinics, nursing homes, ambulance companies, health care provider corporations formed by groups/individuals, and single member LLCs with an EIN, **not** individual health care providers.

Important: For NPI purposes, sole proprietors and sole proprietorships are considered to be "Type 1" providers. Organizations (e.g., corporations, partnerships) are treated as "Type 2" entities. When reporting the NPI of a sole proprietor on this application, therefore, the individual's Type 1 NPI should be reported; for organizations, the Type 2 NPI should be furnished.

To obtain an NPI, you may apply online at **https://NPPES.cms.hhs.gov**.

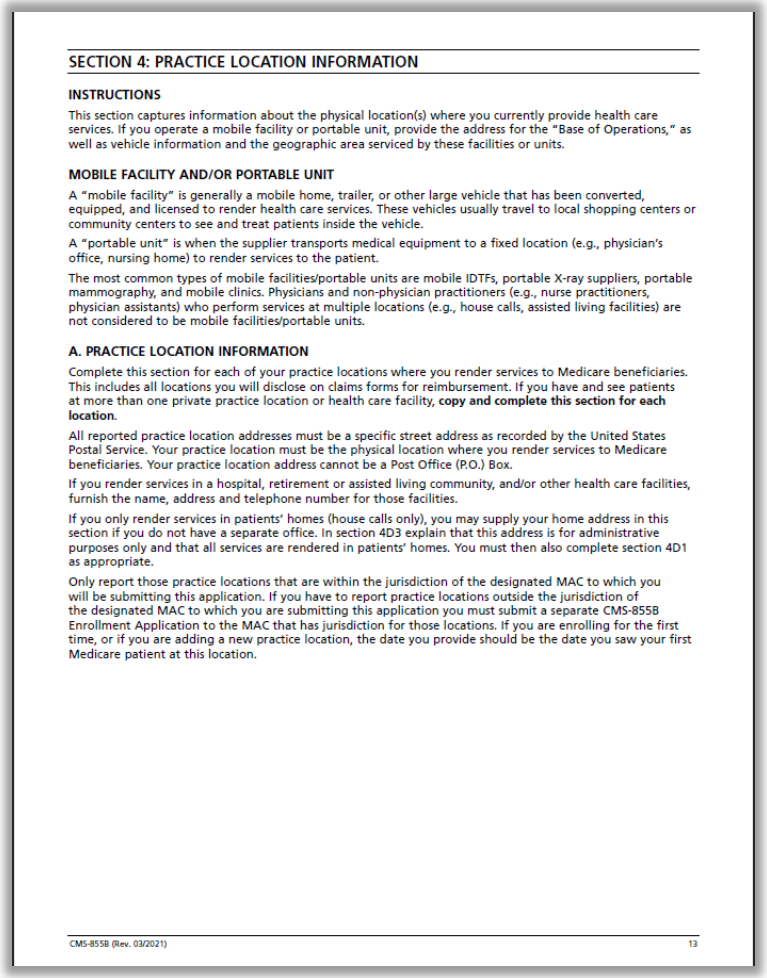
Section 4: Practice Location Information

- Instructions on reporting practice locations in this section
- Report all practice locations including
  - Ambulatory Surgical Centers
  - Hospital
  - Retirement or Assisted Living Community
  - Skilled Nursing Facility or Other Nursing Facility
  - Other health care facilities
  - Administrative Office when performing house calls, which could be home address



SECTION 4: PRACTICE LOCATION INFORMATION

INSTRUCTIONS

This section captures information about the physical location(s) where you currently provide health care services. If you operate a mobile facility or portable unit, provide the address for the "Base of Operations," as well as vehicle information and the geographic area serviced by these facilities or units.

MOBILE FACILITY AND/OR PORTABLE UNIT

A "mobile facility" is generally a mobile home, trailer, or other large vehicle that has been converted, equipped, and licensed to render health care services. These vehicles usually travel to local shopping centers or community centers to see and treat patients inside the vehicle.

A "portable unit" is when the supplier transports medical equipment to a fixed location (e.g., physician's office, nursing home) to render services to the patient.

The most common types of mobile facilities/portable units are mobile IDTFs, portable X-ray suppliers, portable mammography, and mobile clinics. Physicians and non-physician practitioners (e.g., nurse practitioners, physician assistants) who perform services at multiple locations (e.g., house calls, assisted living facilities) are not considered to be mobile facilities/portable units.

A. PRACTICE LOCATION INFORMATION

Complete this section for each of your practice locations where you render services to Medicare beneficiaries. This includes all locations you will disclose on claims forms for reimbursement. If you have and see patients at more than one private practice location or health care facility, **copy and complete this section for each location**.

All reported practice location addresses must be a specific street address as recorded by the United States Postal Service. Your practice location must be the physical location where you render services to Medicare beneficiaries. Your practice location address cannot be a Post Office (P.O.) Box.

If you render services in a hospital, retirement or assisted living community, and/or other health care facilities, furnish the name, address and telephone number for those facilities.

If you only render services in patients' homes (house calls only), you may supply your home address in this section if you do not have a separate office. In section 4D3 explain that this address is for administrative purposes only and that all services are rendered in patients' homes. You must then also complete section 4D1 as appropriate.

Only report those practice locations that are within the jurisdiction of the designated MAC to which you will be submitting this application. If you have to report practice locations outside the jurisdiction of the designated MAC to which you are submitting this application you must submit a separate CMS-855B Enrollment Application to the MAC that has jurisdiction for those locations. If you are enrolling for the first time, or if you are adding a new practice location, the date you provide should be the date you saw your first Medicare patient at this location.

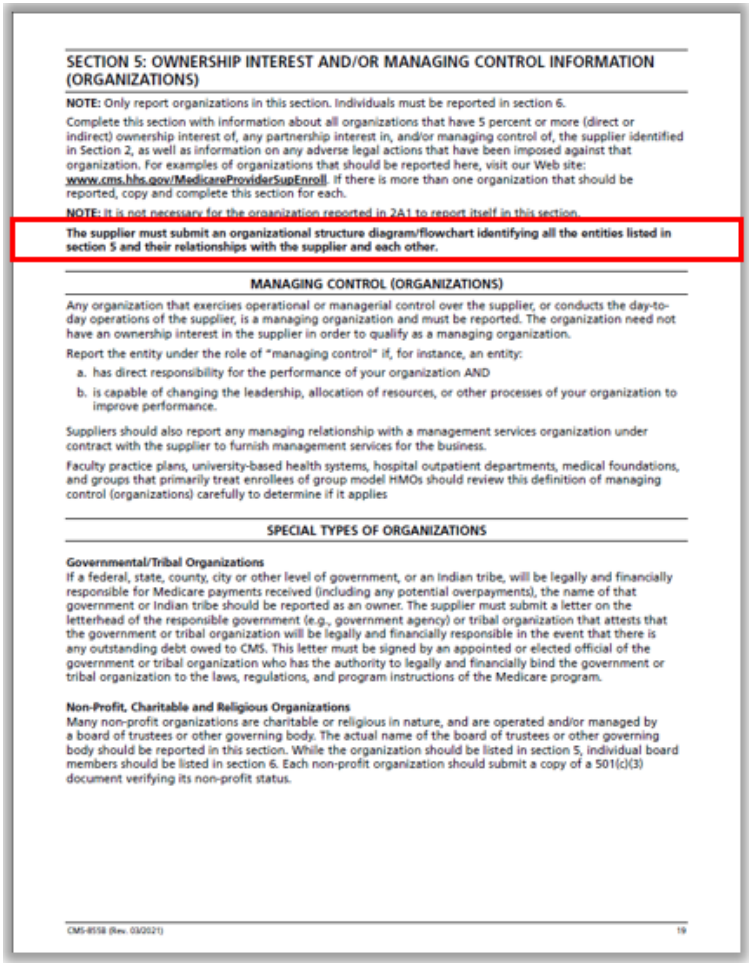
Section 5: Ownership Interest and/or Managing Control Information (Organizations)

- Instructions on organizations to report in this section
- Organizational Flowchart/Diagram
- Individuals report in Section 6



SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS)

NOTE: Only report organizations in this section. Individuals must be reported in section 6.

Complete this section with information about all organizations that have 5 percent or more (direct or indirect) ownership interest of, any partnership interest in, and/or managing control of, the supplier identified in Section 2, as well as information on any adverse legal actions that have been imposed against that organization. For examples of organizations that should be reported here, visit our Web site: www.cms.hhs.gov/MedicareProviderSupEnroll. If there is more than one organization that should be reported, copy and complete this section for each.

NOTE: It is not necessary for the organization reported in 2A1 to report itself in this section.

The supplier must submit an organizational structure diagram/flowchart identifying all the entities listed in section 5 and their relationships with the supplier and each other.

MANAGING CONTROL (ORGANIZATIONS)

Any organization that exercises operational or managerial control over the supplier, or conducts the day-to-day operations of the supplier, is a managing organization and must be reported. The organization need not have an ownership interest in the supplier in order to qualify as a managing organization.

Report the entity under the role of "managing control" if, for instance, an entity:

a. has direct responsibility for the performance of your organization AND

b. is capable of changing the leadership, allocation of resources, or other processes of your organization to improve performance.

Suppliers should also report any managing relationship with a management services organization under contract with the supplier to furnish management services for the business.

Faculty practice plans, university-based health systems, hospital outpatient departments, medical foundations, and groups that primarily treat enrollees of group model HMOs should review this definition of managing control (organizations) carefully to determine if it applies

SPECIAL TYPES OF ORGANIZATIONS

Governmental/Tribal Organizations
If a federal, state, county, city or other level of government, or an Indian tribe, will be legally and financially responsible for Medicare payments received (including any potential overpayments), the name of that government or Indian tribe should be reported as an owner. The supplier must submit a letter on the letterhead of the responsible government (e.g., government agency) or tribal organization that attests that the government or tribal organization will be legally and financially responsible in the event that there is any outstanding debt owed to CMS. This letter must be signed by an appointed or elected official of the government or tribal organization who has the authority to legally and financially bind the government or tribal organization to the laws, regulations, and program instructions of the Medicare program.

Non-Profit, Charitable and Religious Organizations
Many non-profit organizations are charitable or religious in nature, and are operated and/or managed by a board of trustees or other governing body. The actual name of the board of trustees or other governing body should be reported in this section. While the organization should be listed in section 5, individual board members should be listed in section 6. Each non-profit organization should submit a copy of a 501(c)(3) document verifying its non-profit status.

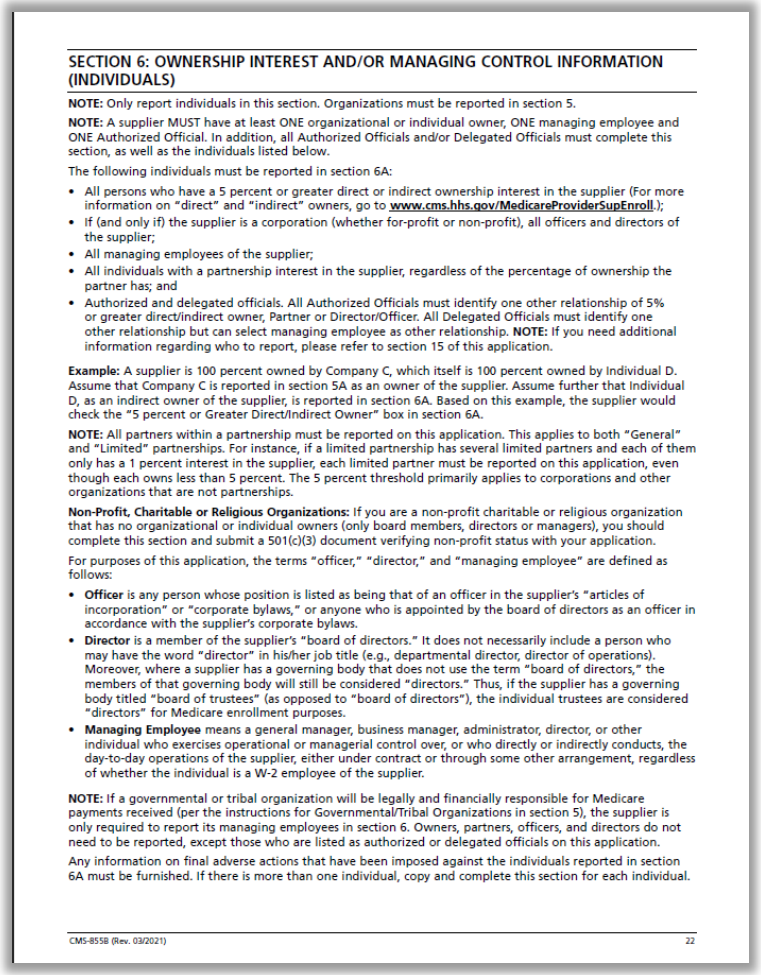
Section 6: Ownership Interest and/or Managing Control Information (Individuals)

- Instructions on individuals to report in this section
- Organizations report in Section 5



SECTION 6: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (INDIVIDUALS)

NOTE: Only report individuals in this section. Organizations must be reported in section 5.

NOTE: A supplier MUST have at least ONE organizational or individual owner, ONE managing employee and ONE Authorized Official. In addition, all Authorized Officials and/or Delegated Officials must complete this section, as well as the individuals listed below.

The following individuals must be reported in section 6A:

- All persons who have a 5 percent or greater direct or indirect ownership interest in the supplier (For more information on "direct" and "indirect" owners, go to **www.cms.hhs.gov/MedicareProviderSupEnroll**.);
- If (and only if) the supplier is a corporation (whether for-profit or non-profit), all officers and directors of the supplier;
- All managing employees of the supplier;
- All individuals with a partnership interest in the supplier, regardless of the percentage of ownership the partner has; and
- Authorized and delegated officials. All Authorized Officials must identify one other relationship of 5% or greater direct/indirect owner, Partner or Director/Officer. All Delegated Officials must identify one other relationship but can select managing employee as other relationship. **NOTE:** If you need additional information regarding who to report, please refer to section 15 of this application.

Example: A supplier is 100 percent owned by Company C, which itself is 100 percent owned by Individual D. Assume that Company C is reported in section 5A as an owner of the supplier. Assume further that Individual D, as an indirect owner of the supplier, is reported in section 6A. Based on this example, the supplier would check the "5 percent or Greater Direct/Indirect Owner" box in section 6A.

NOTE: All partners within a partnership must be reported on this application. This applies to both "General" and "Limited" partnerships. For instance, if a limited partnership has several limited partners and each of them only has a 1 percent interest in the supplier, each limited partner must be reported on this application, even though each owns less than 5 percent. The 5 percent threshold primarily applies to corporations and other organizations that are not partnerships.

Non-Profit, Charitable or Religious Organizations: If you are a non-profit charitable or religious organization that has no organizational or individual owners (only board members, directors or managers), you should complete this section and submit a 501(c)(3) document verifying non-profit status with your application.

For purposes of this application, the terms "officer," "director," and "managing employee" are defined as follows:

- **Officer** is any person whose position is listed as being that of an officer in the supplier's "articles of incorporation" or "corporate bylaws," or anyone who is appointed by the board of directors as an officer in accordance with the supplier's corporate bylaws.
- **Director** is a member of the supplier's "board of directors." It does not necessarily include a person who may have the word "director" in his/her job title (e.g., departmental director, director of operations). Moreover, where a supplier has a governing body that does not use the term "board of directors," the members of that governing body will still be considered "directors." Thus, if the supplier has a governing body titled "board of trustees" (as opposed to "board of directors"), the individual trustees are considered "directors" for Medicare enrollment purposes.
- **Managing Employee** means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts, the day-to-day operations of the supplier, either under contract or through some other arrangement, regardless of whether the individual is a W-2 employee of the supplier.

NOTE: If a governmental or tribal organization will be legally and financially responsible for Medicare payments received (per the instructions for Governmental/Tribal Organizations in section 5), the supplier is only required to report its managing employees in section 6. Owners, partners, officers, and directors do not need to be reported, except those who are listed as authorized or delegated officials on this application.

Any information on final adverse actions that have been imposed against the individuals reported in section 6A must be furnished. If there is more than one individual, copy and complete this section for each individual.

Individual offenders are subject to fines of up to $250,000 and imprisonment for up to five years. Offenders that are organizations are subject to fines of up to $500,000 (18 U.S.C. section 3571). The offender is subject to fines of up to $25,000 and/or imprisonment for up to five years.
3. The Civil False Claims Act, 31 U.S.C.    a. was not provided as claimed; and/or

   b. the claim is false or fraudulent.

   This provision authorizes a civil monetary penalty of up to $10,000 for each item or service, an assessment of up to three times the amount claimed, and exclusion from participation in the Medicare program and state health care programs.

SECTION 15: CERTIFICATION STATEMENT

An **Authorized Official** is defined as an appointed official (for example, chief executive officer, chief financial officer, general partner, chairman of the board, or direct owner) to whom the organization has granted the legal authority to enroll it in the Medicare program, to make changes or updates to the organization's status in the Medicare program, and to commit the organization to fully abide by the statutes, regulations, and program instructions of the Medicare program.

A **Delegated Official** is defined as an individual who is delegated by an authorized official the authority to report changes and updates to the supplier's enrollment record. A delegated official must be an individual with an "ownership or control interest" in (as that term is defined in section 1124(a)(3) of the Social Security Act), or be a W-2 managing employee of the supplier.

Delegated officials may not delegate their authority to any other individual. Only an authorized official may delegate the authority to make changes and/or updates to the supplier's Medicare status. Even when delegated officials are reported in this application, an authorized official retains the authority to make any such changes and/or updates by providing his or her printed name, signature, and date of signature as required in section 15B.

NOTE: Authorized officials and delegated officials must be reported in section 6, either on this application or on a previous application to this same MAC. If this is the first time an authorized and/or delegated official has been reported on the CMS-855B, you must complete section 6 for that individual and that individual must sign section 15.

By his/her signature(s), an authorized official binds the supplier to all of the requirements listed in the Certification Statement and acknowledges that the supplier may be denied entry to or revoked from the Medicare program if any requirements are not met.

Only an authorized official has the authority to sign (1) the initial enrollment application on behalf of the supplier and (2) add or remove additional authorized officials and delegated officials. Once the delegation of authority has been established all other enrollment application submissions can be signed by either an authorized official or delegated official.

By signing this application, an authorized official agrees to immediately notify the MAC if any information furnished on this application is not true, correct, or complete. In addition, an authorized official, by his/her signature, agrees to notify the MAC of any future changes to the information contained in this form, after the supplier is enrolled in Medicare, in accordance with the timeframes established in 42 C.F.R. 424.516. (IDTF changes of information must be reported in accordance with 42 C.F.R. 410.33.)

The supplier can have as many authorized officials as it wants. If the supplier has more than two authorized officials, it should copy and complete this section as needed.

EACH AUTHORIZED AND DELEGATED OFFICIAL MUST HAVE AND DISCLOSE HIS/HER SOCIAL SECURITY NUMBER.

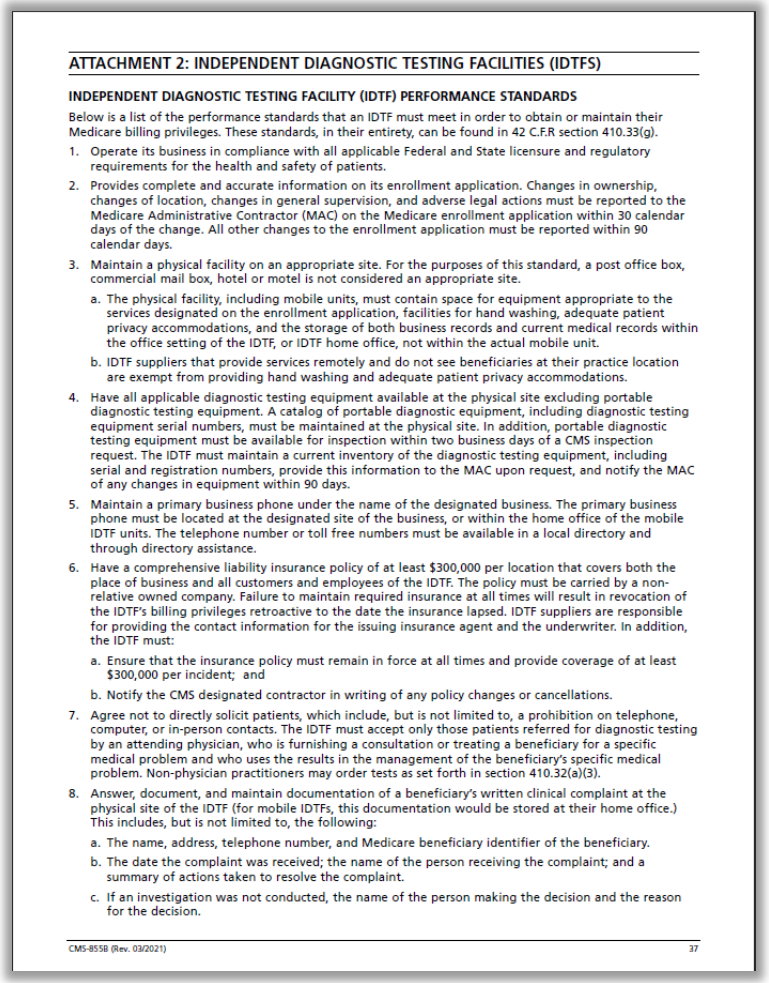
- IDTF Performance Standards



ATTACHMENT 2: INDEPENDENT DIAGNOSTIC TESTING FACILITIES (IDTFS)

INDEPENDENT DIAGNOSTIC TESTING FACILITY (IDTF) PERFORMANCE STANDARDS

Below is a list of the performance standards that an IDTF must meet in order to obtain or maintain their Medicare billing privileges. These standards, in their entirety, can be found in 42 C.F.R section 410.33(g).

1. Operate its business in compliance with all applicable Federal and State licensure and regulatory requirements for the health and safety of patients.
2. Provides complete and accurate information on its enrollment application. Changes in ownership, changes of location, changes in general supervision, and adverse legal actions must be reported to the Medicare Administrative Contractor (MAC) on the Medicare enrollment application within 30 calendar days of the change. All other changes to the enrollment application must be reported within 90 calendar days.
3. Maintain a physical facility on an appropriate site. For the purposes of this standard, a post office box, commercial mail box, hotel or motel is not considered an appropriate site.
   a. The physical facility, including mobile units, must contain space for equipment appropriate to the services designated on the enrollment application, facilities for hand washing, adequate patient privacy accommodations, and the storage of both business records and current medical records within the office setting of the IDTF, or IDTF home office, not within the actual mobile unit.
   b. IDTF suppliers that provide services remotely and do not see beneficiaries at their practice location are exempt from providing hand washing and adequate patient privacy accommodations.
4. Have all applicable diagnostic testing equipment available at the physical site excluding portable diagnostic testing equipment. A catalog of portable diagnostic equipment, including diagnostic testing equipment serial numbers, must be maintained at the physical site. In addition, portable diagnostic testing equipment must be available for inspection within two business days of a CMS inspection request. The IDTF must maintain a current inventory of the diagnostic testing equipment, including serial and registration numbers, provide this information to the MAC upon request, and notify the MAC of any changes in equipment within 90 days.
5. Maintain a primary business phone under the name of the designated business. The primary business phone must be located at the designated site of the business, or within the home office of the mobile IDTF units. The telephone number or toll free numbers must be available in a local directory and through directory assistance.
6. Have a comprehensive liability insurance policy of at least $300,000 per location that covers both the place of business and all customers and employees of the IDTF. The policy must be carried by a non-relative owned company. Failure to maintain required insurance at all times will result in revocation of the IDTF's billing privileges retroactive to the date the insurance lapsed. IDTF suppliers are responsible for providing the contact information for the issuing insurance agent and the underwriter. In addition, the IDTF must:
   a. Ensure that the insurance policy must remain in force at all times and provide coverage of at least $300,000 per incident; and
   b. Notify the CMS designated contractor in writing of any policy changes or cancellations.
7. Agree not to directly solicit patients, which include, but is not limited to, a prohibition on telephone, computer, or in-person contacts. The IDTF must accept only those patients referred for diagnostic testing by an attending physician, who is furnishing a consultation or treating a beneficiary for a specific medical problem and who uses the results in the management of the beneficiary's specific medical problem. Non-physician practitioners may order tests as set forth in section 410.32(a)(3).
8. Answer, document, and maintain documentation of a beneficiary's written clinical complaint at the physical site of the IDTF (for mobile IDTFs, this documentation would be stored at their home office.) This includes, but is not limited to, the following:
   a. The name, address, telephone number, and Medicare beneficiary identifier of the beneficiary.
   b. The date the complaint was received; the name of the person receiving the complaint; and a summary of actions taken to resolve the complaint.
   c. If an investigation was not conducted, the name of the person making the decision and the reason for the decision.

10. Disclose to the government any person having ownership, financial, or control interest or any other legal interest in the supplier at the time of enrollment or within 30 days of a change.
11. Have its testing equipment calibrated and maintained per equipment instructions and in compliance with applicable manufacturers suggested maintenance and calibration standards.
12. Have technical staff on duty with the appropriate credentials to perform tests. The IDTF must be able to produce the applicable federal or state licenses or certifications of the individuals performing these services.
13. Have proper medical record storage and be able to retrieve medical records upon request from CMS or the MAC within 2 business days.
14. Permit CMS, including its agents, or its MACs, to conduct unannounced, on-site inspections to confirm the IDTF's compliance with these standards. The IDTF must be accessible during regular business hours to CMS and beneficiaries and must maintain a visible sign posting the normal business hours of the IDTF.
15. With the exception of hospital-based and mobile IDTFs, a fixed base IDTF does not include the following:
    a. Sharing a practice location with another Medicare-enrolled individual or organization.
    b. Leasing or subleasing its operations or its practice location to another Medicare enrolled individual or organization.
    c. Sharing diagnostic testing equipment using in the initial diagnostic test with another Medicare enrolled individual or organization.
16. Enrolls in Medicare for any diagnostic testing services that it furnishes to a Medicare beneficiary, regardless of whether the service is furnished in a mobile or fixed base location.
17. Bills for all mobile diagnostic services that are furnished to a Medicare beneficiary, unless the mobile diagnostic service is part of a service provided under arrangement as described in section 1861(w)(1) of the Act.

INSTRUCTIONS

If you perform diagnostic tests, other than clinical laboratory or pathology tests, and are required to enroll as an IDTF, you must complete this attachment. CMS requires the information in this attachment to determine whether the enrolling supplier meets all IDTF standards including, but not limited to, those listed above on this application. Not all suppliers that perform diagnostic tests are required to enroll as an IDTF.

If the IDTF is deleting an Interpreting Physician, a Technician who performs tests, or a Supervising Physician with this IDTF, complete section F of this attachment (below). Mail this attachment with original signatures to your designated MAC (**NOTE:** Supervising Physicians must sign section F). The MAC that services your State is responsible for processing your enrollment application information. To locate the mailing address for your designated MAC, go to **www.cms.gov/MedicareProviderSupEnroll**.

DIAGNOSTIC RADIOLOGY

Many diagnostic tests are radiological procedures that require the professional services of a radiologist. A radiologist's practice is generally different from those of other physicians because radiologists usually do not bill E&M codes or treat a patient's medical condition on an ongoing basis. A radiologist or group practice of radiologists is not necessarily required to enroll as an IDTF. If enrolling as a diagnostic radiology group practice or clinic and billing for the technical component of diagnostic radiological tests without enrolling as an IDTF (if the entity is a free standing diagnostic facility), it should contact the carrier to determine that it does not need to enroll as an IDTF.

A mobile IDTF that provides X-ray services is not classified as a portable X-ray supplier. Regulations governing IDTFs can be found at 42 C.F.R. 410.33.

CPT-4 AND HCPCS CODES

Report all CPT-4 and HCPCS codes for which this IDTF will bill Medicare. Include the following:

- Provide the CPT-4 or HCPCS codes for which this IDTF intends to bill Medicare,
- The name and type of equipment used to perform the reported procedure, and
- The model number of the reported equipment.

The IDTF should report all Current Procedural Terminology, Version 4 (CPT-4) codes, Healthcare Common Procedural Coding System codes (HCPCS), and types of equipment (including the model number), for which it will perform tests, supervise, interpret, and/or bill. All codes reported must be for diagnostic tests that an IDTF is allowed to perform. Diagnostic tests that are clearly surgical in nature, which must be performed in a hospital or ambulatory surgical center, should not be reported.

Consistent with IDTF supplier standard 6 on page 37 of this application, all IDTFs enrolling in Medicare must have a comprehensive liability insurance policy of at least $300,000 per location that covers both the place of business and all customers and employees of the IDTF. The policy must be carried by a non- relative owned company. Failure to maintain the required insurance at all times will result in revocation of the Medicare supplier billing number, retroactive to the date the insurance lapsed. Malpractice insurance policies do not demonstrate compliance with this requirement.

All IDTFs must submit a complete copy of the aforementioned liability insurance policy with this application.

C. INTERPRETING PHYSICIAN INFORMATION

☐ Check here if this section does not apply because the interpreting physician is enrolled in Medicare as an individual and will bill separately from the IDTF.

When a mobile unit of the IDTF performs a technical component of a diagnostic test and the interpretive physician is the same physician who ordered the test, the IDTF cannot bill for the interpretation. Therefore, these interpreting physicians should not be reported since the interpretive physician must submit his/her own claims for these tests.

All physicians whose interpretations will be billed by this IDTF with the technical component (TC) of the test (i.e., global billing) must be listed in this section. **If there are more than two physicians, copy and complete this section as needed.** All interpreting physicians must be currently enrolled in the Medicare program.

If you are billing for purchased interpretations, all requirements for purchased interpretations must be met.

The supervising physician must also attest to his/her supervising responsibilities for the enrolling IDTF.

Information concerning the type of supervision (personal, direct, or general) required for performance of specific IDTF tests can be obtained from your MAC. All IDTFs must report at least one supervisory physician, and at least one supervising physician must perform the supervision requirements stated in 42 C.F.R. 410.32(b)(3). All supervisory physician(s) must be currently enrolled in Medicare. Under 42 CFR section 410.33(b)(1), each supervising physician must be limited to providing general supervision at no more than three IDTF sites. This applies to both fixed sites and mobile units where three concurrent operations are capable of performing tests.

The type of supervision being performed by each physician who signs the attestation in this section of this application should be listed in this section.

NOTE: If there is more than one supervising physician, copy and complete this section for each.

Definitions of the types of supervision are as follows:

- **Personal Supervision** means a physician must be in attendance in the room during the performance of the procedure.
- **Direct Supervision** means the physician must be present in the office suite and immediately available to provide assistance and direction throughout the performance of the procedure. It does not mean that the physician must be present in the room when the procedure is performed.
- **General Supervision** means the procedure is provided under the physician's overall direction and control, but the physician's presence is not required during the performance of the procedure. General supervision also includes the responsibility that the non-physician personnel who perform the tests are qualified and properly trained and that the equipment is operated properly, maintained, calibrated and that necessary supplies are available.

If you are changing, adding, or removing information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.
