[Local Coverage Determinations](#)

[Accessing Coverage Information](#)

[Resources & References](#)

[Questions](#)

# Understanding Medicare Coverage

“As a health care provider, you should understand Medicare coverage before providing services or items to Medicare patients.”

MLN<sup>®</sup> Educational Tool: [How to Use the Medicare Coverage Database](#)

# Determining Covered Services

- CMS IOM Publications
  - [100-02, Medicare Benefit Policy Manual](#)
    - Contains details on scope of covered Part A and Part B services
  - [100-03, Medicare National Coverage Determination \(NCD\) Manual](#)
    - Sets policy for determining medical necessity for specific services
- [Medicare Coverage Database](#)
  - NCDs
  - LCDs

# National Coverage Determinations

# NCD

- CMS national decision concerning specific service(s) that Medicare will or will not cover
  - Implemented nationally
  - Doesn't vary by location
  - Applies to all Medicare providers and contractors

# Locating NCDs

- NCDs published on CMS website under assigned numeric identifier
  - CMS Medicare Coverage Database
    - NCD alphabetical index and chapter/section index
  - CMS IOM Publication 100-03, *National Coverage Determinations Manual*
    - Organized into four parts based on NCD numeric identifier
  - New or revised NCDs announced via CRs and instructions manualized in applicable sections of IOMs

# NCD-Automated Edits

- NCDs enforced by *automated* claims processing system edits
- MACs receive implementation instructions prior to NCD enforcement and notify provider community
- Claims denied when they do not pass system edits for NCDs

# NCD-Related Claim Denials

Reason Code	Description
52NCD	Line level reason code to indicate that the HCPCS code and a diagnosis code on the claim matched an NCD edit table list to deny codes.
53NCD	All the line items on the claim have units of service that are in excess of the medically reasonable daily allowable frequency. The excess charges due to units of service greater than the maximum allowable may not be billed to the beneficiary and this provision can neither be waived nor subject to an ABN.
54NCD	Line level reason code to indicate that none of the diagnosis codes on the claim support the medical necessity of the services. Service denied and the provider is liable.

# Avoiding NCD-Related Claim Denials

- Ensure all Medicare coverage and medical necessity requirements met before billing
- If Medicare will not cover services, consider submitting charges as noncovered
- Visit [Medicare Coverage Database](#) to review NCDs and LCDs to determine covered diagnosis for services provided

# Local Coverage Determinations

# LCD

- Policy decision made by MAC concerning whether to allow coverage of particular item/service
  - Only applies to services within that MAC's jurisdiction
  - Varies in language or implementation

# Benefits of LCDs

- Assist providers to submit correct claims for payment
  - Administrative and educational tools
- Help define Medicare coverage limitations for certain services
- Help reviewers to make consistent, accurate coverage decisions

*NCDs always supersede LCDs;  
LCD may expand/clarify coverage and coding for NCD*

# How Are LCDs Developed?

- MACs develop LCDs on as-needed basis when they:
  - Determine that item or service should not be covered under certain circumstances
  - Discover problem that demonstrates significant risk to Medicare trust fund
  - Detect overutilization or misuse of items or services
  - Receive request from external parties (beneficiaries, providers, or manufacturers)

# LCD Components

- Consistent format includes the following sections:
  - Contractor information
  - CMS National Coverage Policy
  - CMS Publications
  - Coverage guidance
  - Summary of Evidence and Analysis of Evidence
  - General information
  - Revision history
  - Associated documents

# Billing & Coding Articles

- Include important coding guidelines and billing instructions not related to medical necessity
- Each LCD has at least one related article
- Article link(s) found in Associated Documents section at bottom of LCD
  - Links only “live” in active LCDs and articles
  - Link to related LCD found at end of each article

# LCD Automated Edits

- LCDs supported and enforced by automated system edits
  - 55A00, 55A01 – “This claim was denied by an automated system for not having a covered diagnosis in accordance with an LCD”
- Provider may correct diagnosis by submitting
  - Written request
  - Adjustment according to instructions in [Submit an Adjustment to Correct Claims Partially Denied by Automated LCD-NCD Denials](#)
    - Only for line-item denial reason codes 55A00, 55A01, 52NCD, 53NCD, 54NCD and 59XXX series

# What if There Is No NCD or LCD?

- Check for coverage guidelines in CMS IOMs, CRs, and MLN Matters articles
- Check [NGS website](#)
- Check for related medical policy article
- Make sure service not statutorily or administratively excluded
  - [CMS IOM Publication 100-02, Medicare Benefit Policy Manual, Chapter 16, General Exclusions From Coverage](#)
- If no written guidelines on coverage exist, you can request creation of new LCD
  - A56198: [New Local Coverage Determination \(LCD\) Request Process](#)

# Accessing Coverage Information

# Accessing Medical Policies/LCDs

- [NGS website](#)

The screenshot displays the National Government Services website interface. At the top, there is a dark blue navigation bar with the following elements: 'Contact Us', 'NGSConnex', 'Subscribe for Email Updates', and 'Part A Provider in Connecticut ( JK )'. Below this is a lighter blue navigation bar with the 'national government SERVICES' logo, a search icon, and menu items for 'HOME', 'EDUCATION', 'RESOURCES', 'EVENTS', 'ENROLLMENT', and 'APPS'. The main content area features six white cards with blue icons and text. The first card, 'Medical Policies/LCDs', is highlighted with a red border and a red arrow pointing to it from the left. A vertical orange bar labeled 'FEEDBACK' is positioned to the left of the cards. The other cards are: 'Enrollment', 'Fee Schedules & Pricers', 'Claims and Appeals', 'Overpayments', and 'Medicare Compliance'.

Section	Description
Medical Policies/LCDs	Find LCDs and related billing and coding articles
Enrollment	Getting started, after you enroll, and revalidating your enrollment
Fee Schedules & Pricers	Code pricing search, payment systems, limits, and fee schedule lookup
Claims and Appeals	Learn about claims, top errors, fees, MBI and appeals
Overpayments	Repayment schedules, and post-pay adjustment
Medicare Compliance	Medical Review, Prior Authorization, Fraud & Abuse, CERT, and more

# Searching LCDs on NGS Website

## MEDICAL POLICIES/LCDS

### National Government Services Local Coverage Determinations

Welcome to Medical Policies. Below you will find the LCDs, related billing & coding articles and additional medical policy topics. When entering criteria into the search box, the search results will be conducted within the LCDs and the Medical Policy Articles shown below.

**Please note:** There are many procedures for which NGS does not have an LCD/Billing and Coding Article. If your search does not return any coverage documents, then NGS does not have a local coverage statement for that procedure.

For additional Medical Policy Topics, refer to the bottom of the page.

# Viewing LCDs on the MCD

The screenshot displays the Medicare Coverage Database (MCD) interface. At the top, the MCD logo and 'Medicare Coverage Database' are visible. Navigation links include Search, Reports, and Downloads. Utility icons for home, help, and settings are present, along with Archive and API links. A left sidebar contains a 'Contents' menu with options: Contractor Information, LCD Information, General Information, Revision History Information, Associated Documents, and Keywords. The main content area shows a highlighted 'Local Coverage Determination (LCD)' for 'Outpatient Physical and Occupational Therapy Services' with ID L33631. Action buttons for 'Expand All | Collapse All', email, download, and home are provided. Below the title, there are expandable sections for Contractor Information, LCD Information, General Information, and Revision History Information.
